QUESTION 301 Which two statements about disjoint Layer 2 networks are true? (Choose two.)  
 A. Ethernet Switching mode must be end-host mode.  
 B. Overlapping vlans are supported.  
 C. Each vNIC can communicate with all the disjoint Layer 2 networks.  
 D. Symmetrical configuration is recommended for high availability.  
 E. Default VLAN 1 can be configured explicitly on an Uplink Ethernet Port or Port Channel.  
 F. Appliance port cannot be configured with the same VLAN as Uplink Ethernet Port or Port Channel.  
 Answer: AD QUESTION 302 Drag and Drop Question

On the left is a list of service profile modifications. Drag and drop four of these modifications to the list on the right, each of which would not require a blade reboot to become effective.

|   |   |
|---|---|
| adding a vLAN to a vNIC                     | Use Not Require Blade Reboot                |
| changing the iCCP authentication profile    | adding a vLAN to a vNIC                     |
| changing a QoS system class MPU             | changing a QoS system class MPU             |
| enabling Cisco Discovery Protocol on a vNIC | enabling Cisco Discovery Protocol on a vNIC |
| assigning an IPB policy                     | assigning an IPB policy                     |

Answer:

|   |   |
|---|---|
| adding a vLAN to a vNIC                     | Use Not Require Blade Reboot                |
| changing the iCCP authentication profile    | adding a vLAN to a vNIC                     |
| changing a QoS system class MPU             | changing a QoS system class MPU             |
| enabling Cisco Discovery Protocol on a vNIC | enabling Cisco Discovery Protocol on a vNIC |
| assigning an IPB policy                     | assigning an IPB policy                     |

QUESTION 303 Drag and Drop Question

Drag four actions from left that can be performed by the Server Configuration Utility for the Cisco UCS C-Series and drop them on the list on right.

|                                    |                                    |
|------------------------------------|------------------------------------|
| Perform offline diagnostics        | Performed by SCU                   |
| Add or remove vNICs and enable     | Perform offline diagnostics        |
| Configure iCCP host parameters     | Configure iCCP host parameters     |
| Reinstall operating system install | Reinstall operating system install |
| Update platform firmware           | Update platform firmware           |

Answer:

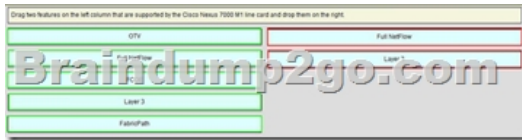

|                                    |   |
|------------------------------------|---|
| Perform offline diagnostics        | Performed by SCU                              |
| Add or remove vNICs and enable     | Perform offline diagnostics                   |
| Configure iCCP host parameters     | Configure iCCP host parameters                |
| Reinstall operating system install | Reinstall the latest operating system drivers |
| Update platform firmware           | Update platform firmware                      |

QUESTION 304 Drag and Drop Question

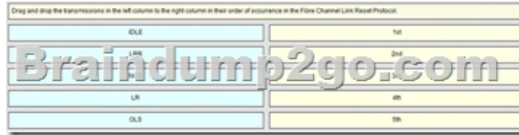

Drag four actions from left that can be performed by the Server Configuration Utility for the Cisco UCS C-Series and drop them on the list on right.

|                                    |   |
|------------------------------------|---|
| Perform offline diagnostics        | Performed by SCU                              |
| Add or remove vNICs and enable     | Perform offline diagnostics                   |
| Configure iCCP host parameters     | Configure iCCP host parameters                |
| Reinstall operating system install | Reinstall the latest operating system drivers |
| Update platform firmware           | Update platform firmware                      |

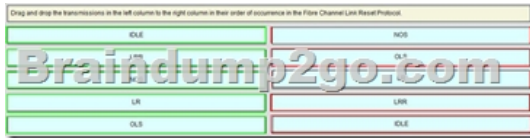

Answer:

QUESTION 305 Drag and Drop Question

Answer:

QUESTION 306 OTV is a MAC-in-IP method that extends Layer 2 connectivity across a transport network infrastructure. Which three options are high-availability features? (Choose three.)  
 A. OTV fast convergence  
 B. fast failure detection  
 C. added the track-adjacency-nexthop command to enable overlay route tracking  
 D. added support for unicast cores using an adjacency server  
 E. added support for IPv6 unicast forwarding and multicast flooding across the OTV overlay

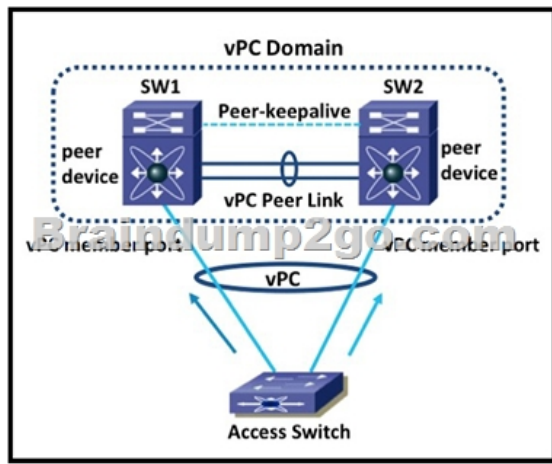

Answer: ABC  
 QUESTION 307 Which three statements about FabricPath are true? (Choose three.)  
 A. Only FabricPath VLANs can cross a FabricPath domain.  
 B. A vPC+ peer link can be formed out of F1 or F2 ports only.  
 C. With FabricPath, vPC must be changed to vPC+.  
 D. F1 ports must be placed into a separate VDCs.  
 E. A vPC+ peer link can be formed out of F2 ports only.

Answer: ABC  
 QUESTION 308 Refer to the exhibit. What is the purpose of this command on the Cisco Nexus 7000 switch?

```
switch# config terminal
switch(config)# fabricpath enable vlan 1-10
```

A. The command enables conversational learning on FabricPath VLANs 1 through 10 for the F Series module.  
 B. The command enables the FabricPath protocol on VLANs 1 through 10.  
 C. There is no need for this command because conversational learning is enabled by default for all VLANs.  
 D. The command enables conversational learning on a classic Ethernet VLAN for the F Series module.

Answer: D  
 QUESTION 309 Refer to the exhibit. Which three statements describe the use of the vPC peer link in this topology? (Choose three.)

A. The peer link is used for synchronizing MAC addresses between SW1 and SW2.  
 B. The peer link is used for control plane traffic only.  
 C. The peer link provides necessary transport for multicast traffic.  
 D. The peer link is used for the communication of orphaned ports.  
 E. The peer link does not prevent the loops in the topology.  
 F. The peer link always consists of two 10GB ports in a port-channel.

Answer: ACD  
 QUESTION 310 What is the default vPC peer-keepalive timeout on the Cisco Nexus 7000 Series switch?

A. 5 seconds  
 B. 256 milliseconds  
 C. 500 milliseconds  
 D. 1 second

Answer: A

Braindump2go Promise All 350-080 Questions and Answers are the Latest Updated, we aim to provide latest and guaranteed questions for all certifications. You just need to be braved in trying then we will help you arrange all left things! 100% Pass All Exams you want Or Full Money Back! Do you want to have a try on passing 350-080?

### CCIE Data Center Written Exam: 350-080

**Product Description Exam Number/Code: 350-080**

**Exam Number/Code: 350-080**

"CCIE Data Center Written Exam", also known as 350-080 exam, is a Cisco Certification. With the complete collection of questions and answers, Braindump2go has assembled to take you through 394 Q&As to your 350-080 Exam preparation. In the 350-080 exam resources, you will cover every field and category in Cisco CCIE Data Center helping to ready you for your successful Cisco Certification.
